

This week, Kern County Supervisors approve Lightning in a Bottle music, arts and culture festival that is scheduled to take place at Buena Vista Lake May 8-13.

“We see the event as an opportunity for local businesses to help our economy. Event organizers have contracted many of our Hispanic chamber members whose services will translate into helping our economy thrive and putting workers to work. We can only expect other

opportunities to rise, and the organizer has expressed interest in extending the event in Kern County in the future.” - Jay Tamsi,

KCHCC
